## Professional Summary

Highly motivated Information Technology student with hands-on experience in full-stack and frontend development, as well as UI/UX design. Proficient in Python, JavaScript, React.js, Node.js, MongoDB, and Figma. Experienced in developing real-world applications such as a Driver Booking Platform, Task Management System (Blue Collar), and designing a Spotify clone. Skilled in using Git and GitHub for version control and collaboration. Committed to building efficient, user-friendly applications while continuously expanding technical expertise.

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js

**Backend:** Node.js, Express.js

**Databases:** MongoDB, PostgreSQL

**Languages:** Java, TypeScript-(Basics)

**Tools:** Git, GitHub, Figma, Canva

**Concepts:** REST APIs, Responsive Design

## Project Work

### Voice-Enabled AI Logistics Assistant

GitHub

- Developed an AI-powered bilingual logistics assistant using React and FastAPI with role-based dashboards for admin, warehouse, and delivery workflows.
- Implemented NLP voice commands, TTS responses, real-time order tracking, and automated email notifications for assignment, packing, and delivery updates.

### AI-Based Prompt Optimization System

GitHub

- Developed an AI-based prompt optimization system to improve the quality and effectiveness of user prompts.
- Implemented prompt analysis and optimization logic to generate refined prompts with a user-friendly interface.

### Driver Booking Website

GitHub

- Developed a full-stack driver booking application using React, Node.js, and MongoDB.
- Enabled users to easily book drivers with a responsive frontend and reliable backend.

### Blue Collar (Manager Task Assigned to User)

GitHub

- Developed a full-stack task management application using React, Node.js, and MongoDB.
- Implemented task assignment, status tracking, and automated email notifications with secure environment variable configuration.

## Work Experience

### Edunet Foundation (AICTE x IBM SkillsBuild)

Feb 2026

- Completed a 6-week virtual internship focused on AI and ML concepts, supervised learning workflows, feature engineering, and model evaluation.
- Built hands-on experience with data preprocessing, real-world datasets, and practical AI problem-solving tasks.
- Strengthened industry-oriented machine learning skills through collaboration with AICTE, Edunet Foundation, and IBM SkillsBuild.

### Front-End Developer Remote Intern - Ekhai Business Services

Aug 2025

- Developed an Ekhai clone website using HTML, CSS, JavaScript, and Bootstrap.
- Built responsive UI with 3D neon glass morphism effects.
- Enhanced UX with smooth scrolling and interactive components.

### UI and UX Design Remote Intern - OneYes Infotech Solution

Feb 2025

- Designed a Spotify clone UI as part of the internship project.
- Created high-fidelity wireframes and interactive prototypes using Figma.
- Designed screens such as Home, Playlist, Player, Library, Search, and Menu.

## Education

### Bachelor of Technology – Information Technology

2023 – 2027

SSM Institute of Engineering and Technology, Dindigul

CGPA: 8.5/10

### Higher Secondary Certificate (HSC)

2023

MSP Solai Nadar Memorial Higher Secondary School, Dindigul

Percentage: 74%

### Secondary School Leaving Certificate (SSLC)

2021

MSP Solai Nadar Memorial Higher Secondary School, Dindigul

Percentage: 90%

## Certifications

Python Foundation Certification - Infosys Springboard.

Front End Web Developer Certification - Infosys Springboard.
